

JESSIE MARK FAJERGA

PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience delivering enterprise-grade web applications across the financial services, healthcare, and CRM industries. Specialized in designing, developing, modernizing, and supporting scalable applications using .NET Core, .NET 8, C#, React, AngularJS, SQL Server, and cloud technologies. Proven experience leading business-critical initiatives, cloud migration projects, application modernization efforts, and production support teams. Strong collaborator with a track record of delivering high-quality solutions in Agile environments while mentoring team members and driving continuous improvement.

EXPERIENCE

Senior Software Engineer, 01/2023 - 07/2026

Loan Market Group - Brisbane, Australia

- Developed and maintained enterprise CRM applications supporting broker and customer management workflows.
- Worked across backend and frontend components using C#, .NET Core, .NET 8, React, AngularJS, and SQL Server.
- Led BAU activities for Contact modules, including issue triage, prioritization, stakeholder communication, and enhancement delivery.
- Contributed to the Azure-to-AWS Lift-and-Shift modernization and migration of a back-office platform.
- Investigated production issues across services, APIs, database queries, and observability tooling such as Honeycomb.
- Mentored junior software engineers, providing guidance on coding standards, best practices, and professional development.

Full Stack Developer, 08/2021 - 01/2023

DevPartners Philippines. - Singapore, Singapore

- Developed and maintained CRM applications for brokers and brokerage firms in Australia using .NET Core and React.
- Converted legacy Angular modules to React, strengthening front-end consistency across core CRM features.
- Supported BAU efforts for contact modules and production fixes across the CRM platform.
- Participated in agile development processes, contributing to sprint planning, daily stand-ups, and retrospectives to enhance project outcomes.

Software Developer, 04/2016 - 08/2021

DSL Data Support Inc.

SKILLS

- C#
- SQL Server
- SQL Multiscript
- Livecode
- Entity Framework
- .NET 8
- ASP.NET
- ADO.NET
- .NET CORE
- HTML
- Javascript
- Angular
- Angular JS
- Octopus Deploy
- Bootstrap
- CSS
- Umbraco
- REST API
- React JS
- GIT
- Bitbucket
- TFS
- JIRA
- Salesforce
- Trello

- Developed and enhanced web-based SaaS applications for healthcare agencies, including Home Health and Health Session Center platforms, applying secure development practices to support HIPAA compliance, data protection, and application security.
- Co-led the development of the Health Session Center (HSC) application, translating business and functional requirements into scalable, maintainable front-end and back-end solutions aligned with application architecture and development standards.
- Managed application deployments using Octopus Deploy and MultiScript, supporting continuous development and delivery across application environments.
- Supported a multi-tenant SaaS application by investigating and resolving production issues and customer cases raised through Salesforce, ensuring timely resolution and application reliability.

- ClickUp
- Microsoft Azure
- Azure DevOps
- Honeycomb
- Docker
- XSLT

Full Stack Developer - Freelancer, 09/2019 - 06/2021

YellowSunTech - Homebased, Philippines

- Developed and maintained web-based applications for the Philippine Federation of Electric Cooperatives (PHILFECO), delivering solutions tailored to business and operational requirements.
- Designed and implemented relational database schemas for Billing and Inventory applications, supporting data integrity, scalability, and efficient data management.
- Designed and developed intuitive, user-friendly interfaces based on client requirements and business workflows.
- Integrated Globelabs SMS and email notification services to enable automated system notifications and customer communications.
- Developed RESTful APIs to support mobile application integration and enable communication between application components and external systems.

IT Instructor, 06/2015 - 04/2016

Bukidnon State University - Kadingilan, Bukidnon

- Prepared technical documentation and lesson materials aligned with course objectives and classroom activities.
- Assessed student assignments and delivered timely feedback to strengthen understanding of technical concepts.
- Mentored students through hands-on exercises and guided participation during practical IT activities.

Junior Software Dev., 08/2013 - 10/2014

Accelerate Desk Business Solutions

- Developed enterprise Accounting, Payroll, and business applications for desktop and web platforms, integrating QuickBooks to support financial data and business workflows.
 - Performed business process analysis and translated functional requirements into efficient database designs and user interfaces aligned with client needs.
 - Developed Maths300, an educational mobile game for Education Support Australia (ESA), using LiveCode for cross-platform application development.
